

The Super Curriculum complements the taught curriculum at Avanti Grange. Super Curriculum activities take topics of study in the classroom further, allowing students to explore areas of interest in greater depth, and point students to additional topics beyond the taught curriculum.

Super Curriculum activities can take a wide variety of forms. Students are free to choose the activity that most interests them. Participating in Super Curriculum activities will help students to broaden their horizons, nurture their love of learning, open their eyes to the world through different disciplines, and build their wider knowledge and cultural capital.

Research

Research the history of the Ordnance Survey. Present your research in your own words, as an annotated timeline, or an information booklet.

Play games on the Ordnance Survey map zone to improve your map skills.

Resources/link: [History of the Ordnance Survey Map Zone](#)

Take your family for a walk using a map to navigate, for example at Hatfield Forest, and/or go geocaching with your family.

Resources/link:

Find geocaching apps via your phone (with your parents' permission) or ask your parents to download one to their own phone.

Choose an article on National Geographic on a topic that interests you and read it.

Further research into the topic if possible.

Make a mind-map or poster to summarise what you have learned.
