

Curriculum Map

Subject: Geography

Studying Geography at Avanti Grange will inspire and equip students to contribute responsibly to a better future for life on Earth. They will develop a sense of identity shaped by understanding their own place in the wider world, both human and natural.

Students will develop a depth and breadth of knowledge of places in the world and their interrelationship, making connections between the human and the natural world. They will think geographically: investigating, interpreting and explaining the geographical processes and interactions in the world around them, taking a critical approach toward data and the media, and taking account of diverse perspectives in context.

Year Group	Autumn Half Term 1	Autumn Half Term 2	Spring Half Term 1	Spring Half Term 2	Summer Half Term 1	Summer Half Term 2
Key Stage 3						
7	What is a geographer? The Earth as a natural resource; sustainable use of resources	Local and global economies	Economies: globalisation Weather and climate	Weather and climate, including local fieldwork: microclimate	Russia End of year assessment	Russia Rivers: river processes and landforms
